

Investing for Success

**Under this agreement for 2021
Cairns State High School will receive**

\$750,938*

This funding will be used to

- Improve student engagement, and achievement in literacy indicators.
- Reform Year 7 curriculum, assessment and learning
- Provide students with opportunities to engage in extension learning, sporting and co-curricular activities
- Engage staff in Gateway Schools in Industry Programs in Aerospace, Advanced Manufacturing and screen & Media

Our initiatives include

- Employment of additional teaching and support staff
- Providing subsidy for student work experience

Our school will improve student outcomes by

- Implementing a program of student wellbeing in Year 11 and 12 to complement the 7-10 program in place.
- Induct new staff effectively to the school in the teaching of effective and engaging instruction.
- Create a strong wellbeing program for staff and students
- Review moderation practices and achieve consistency
- Implement professional development in the teaching of writing and reading
- Explore opportunities for 21st Century Learning through school-wide integration in GISPs Aerospace, Advanced Manufacturing and Screen & Media.
- Increase access to Vocational Education programs for students across the range of destinations.
- Scope and implement a School Inclusion policy.
- Engage students in opportunities to develop student voice.
