We would like to inform you of the changes to the government funding of Vocational Education and Training in Schools (VETiS) programs.

- Under the revised Career Ready Funding policy, students will be eligible to receive government funding for **only one Certificate II qualification** or school-based traineeship/apprenticeship during their high school education.
- An exception to this applies to the **Certificate II in Construction Pathways** and **Certificate II in Engineering Pathways**, both of which are delivered by **Blue Dog Training**. Students may complete **both courses** under Career Ready Funding.

We encourage you to consider these changes when planning your young person's senior education and training pathway.

SCHOOL OPERATED COURSES

Student Declaration

I declare that the information provided to in application for study is to the best of my knowledge, true, correct and complete at the time of my application.

I authorise the RTO to check all available records to confirm that information provided is correct, particularly pertaining to my eligibility for VETiS funding.

I understand that the RTO, at its discretion, may share my personal information with my employer (if undertaking a government funded training) and/or with my parents/guardians (if under the age of 18).

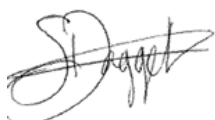

I understand that the RTO will not provide or disclose to any other outside parties my personal information without my consent. However, if required by law then the information will be released.

Parent/Guardian Declaration

I acknowledge and understand that government funding under the VET in Schools (VETiS) program applies to one subsidised course only. Should my young person choose to enrol in additional courses beyond the first funded qualification, I accept that I will be responsible for any associated fees or costs incurred.
