BYOx Financial Hardship Program Application

Introduction

The BYOx Financial Hardship Program provides access to a device for students of families that are suffering from financial hardship and as a result are unable to purchase a Bring Your Own Device for their student to utilise in the school environment and for education purposes.

To be approved to access the program it must be proved that the student's family is suffering financial hardship. Accordingly you will be requested to provide information on your financial situation in the form of brief information detailed below.

Additionally once approved to access the program, the student will be required to provide a \$50 deposit. It is noted that should there be any damage to the device that this funding may be withheld in order to cover the costs associated with repairs to the device. If the device is returned in good working condition, then the deposit will be refunded back into the parent / carer's bank account electronically.

Parent's/Carer's will also need to read / sign a BYOx Laptop Charter agreeing to the conditions and use of the device and be on an approved payment plan.
